Additional info:

Savings! The US – Canadian exchange rate is currently \$ 0.82 USD to \$1 Canadian. Trip fee covers the bus. Hotel reservations and group ticket reservations will be made individually using a group code which will be provided upon your commitment. The late March trip timing offers longer days, warmer temps and much reduced lodging costs (avoiding the Quebec and Ontario school holidays). Save more by sharing a larger suite! The bus trip format avoids airport travel, offers CT to hotel door service. Face masks may be required by bus company, Canada, or the hotel. The hotel offers a generous \$0 fee cancellation policy up to 3d before the trip (2 week cancellation for bus) if we cannot travel safely. Consider your need for trip insurance from companies like Allianz, Travelex and many others and decide if you want “All Cause” cancellation insurance.
